FINISHED...?

The Future of the European Referendum Campaign

This is the situation:

There are the experiences, the know-how and the contacts we have built up over the last three years. Our Europe-wide network has the potential and the intention to achieve "Referendums on the EU Constitution in all EU member states". When we decided in 2001 to start the campaign we did not believe that it would be possible to achieve so much. Now we know that there is a lot more that can be achieved in the future.

There is a clear strategic concept in favour of a consequent continuation of the ERC and a highly motivated team to realise it. With increasing dynamics the political situation develops to our advantage... The lack of money is an obstacle that could force us to end our activities. Shall we end the ERC at the very moment in which we could achieve the most? Support us so that we can continue our common campaign - it is about our democracy!

Please find all the details in the attached exposé in English and German.
